OBJECTIVE

Final-year Computer Science student with hands-on experience in machine learning, NLP, and multi-modal data handling. Seeking the ML Data Associate-II role at Amazon to contribute to responsible AI development by delivering accurate labeled data, maintaining quality standards, and bringing strong analytical and communication skills to the team.

EDUCATION

Alva's Institute of Engineering and Technology, Mijar 2022 – 2026
Bachelor of Engineering in Computer Science & Engineering — CGPA: 8.23
Sri Adichunchanagiri Independent PU College, Shivamogga 2020 – 2022
Karnataka Board PUE (Science) — 81.33%

INTERNSHIP

Data Science Intern — Prinston Smart Engineers

Preprocessed and cleaned real-world datasets; handled missing values, encoding, and feature scaling to ensure data quality.
Built and evaluated ML models (Logistic Regression, Decision Tree, Random Forest) for prediction tasks; documented results.
Identified data pipeline inefficiencies and suggested improvements, developing operational awareness and structured problem-solving.

PROJECTS

AI Model for Automated Content Moderation

Python · NLP · CNN · MongoDB

Designed a dual-modal system to detect offensive content across text and images — directly reflecting multi-modal data handling required for the role.
Applied NLP to identify toxic and hate speech; trained CNN models to flag explicit imagery and hate symbols from visual data.
Analysed labeling errors, identified failure patterns, and refined annotation guidelines to improve output accuracy.

Loan Approval Prediction using Machine Learning + LLM

Python · Scikit-learn · LLM API

Achieved 90–96% accuracy across three algorithms; applied logical reasoning to resolve ambiguous cases in prediction outcomes.
Integrated an LLM API to auto-generate plain-English explanations for model decisions, combining ML with NLP-based insight.
Documented model behaviour, prompt designs, and evaluation findings in structured reports throughout the project.

SKILLS

Languages:	Python, MySQL
Libraries / Frameworks:	Scikit-learn, TensorFlow, Pandas, NumPy
Tools:	VS Code, Google Colab, Git
Concepts:	Machine Learning, NLP, CNN, Data Preprocessing, Explainable AI, Data Labeling & QA

ACHIEVEMENTS

Recognised for developing Smart Tour Guide Expense Splitter at SAP Hack Feast, MITTE Engineering College, Mangalore.
Certified in Data Structures and Algorithms using Java — Infosys Springboard.
Represented Honnali Division in Badminton at the 2018 District-Level Meet, Davanagere.
Volunteered at the International Cultural Jamboree — one of the most significant events in the global Scouting movement.

EXTRA-CURRICULAR ACTIVITIES

Actively learning Indian stock market trading, investment strategies, and global economic trends.
Regular follower of international geopolitics, conflicts, and diplomacy — sharpening research and analytical comprehension skills.
